

Title: *The Art of Simplicity*

Author: *Public Domain Sample*

Body:

Simplicity is the ultimate sophistication.

In the pursuit of clarity, we strip away the noise.

What remains is purpose, precision, and peace.

The wind does not argue with the mountain.

It flows around it, persistent and free.

So too must our thoughts move—unburdened, unbound.

Let the code be clean.

Let the design be honest.

Let the system speak for itself.
